

Personal Relationship with the Divine Source

LIHENIS

[l i h ε n i s]

This code connects us to the Source of All Creation, to the Cosmic Central Consciousness, the Origin, God. It teaches us to ‘talk and walk’ with the Almighty Divine Presence and Their messengers.

With the help of this code we can spare years or lives of fervent quest for connection, rather reconnection. The importance of such a connection is well-known and explained in many teachings but the HOW is often concealed or not mentioned. This invaluable gift-symbol makes this connection easy and possible for all of us.

The code also helps us recognise ourselves and fulfil our life tasks. It helps us discover and become conscious of who we really are, where we came from, and what our life tasks

are. The negative energy has almost completely hidden all of these things behind the veil of oblivion with different manipulative techniques.

The Almighty Father of the Universe is waiting to help us find our place in the world, to find the energy that we all lived in before. Meeting this energy and light changes our lives forever. Searching for this light and finding it within ourselves makes it possible to start our journey 'homeward', back to where we came from. It makes it possible for us to unite with our Origin through our learning processes and our lives.

The negative energies' unspeakable conspiracy and scam is the exhortation to seek God in outside sources and not within ourselves. Because this way we don't have the opportunity to reconnect...
