

## Love and Respect for LIFE

**SIANES**

[s i ʌ n ε s]

Using this code initialises growth in our lives which will fling us to yet unimaginable heights. The Source of All Creation's gift of this code helps us understand the great importance of *Love* in our lives. As a first step this code helps us believe in the Universal Love Energy. Its next step is to support us in believing in ourselves and others as we are all extensions of the Source. This will bring us to a completely new life.

The first two keystones of the 4 Life Codes are Faith, along with Health and Love. Faith, Health and Love are the only foundation upon which we can build the stable castle of a successful, loving and happy earthly life.

**Furthermore, it is extremely important to know that without respect and love for Life, our whole existence has no meaning.** The Source of All Creation wants to help us understand this.
