

The Arrival of the Internacionale onto the Earth

INTERO DENOTAS

[interodnotas]

The code helps to bring about the arrival of the Internacionale. The Internacionale performs defence service under the leadership of Archangel Michael and they are also responsible for the safety and protection of all souls in the Universe. Among their tasks is *the absolute and utter annihilation of negative energy*. They, like all other Light Beings, do their work for the Earth invisibly, humbly and respectfully.

The code creates the necessary conditions for the Deities of the Internacionale to appear in our lives personally with physical bodies. Using the code raises the frequency levels of the Earth and every individual. This is necessary for the Internacionale's Deities to enter the Earth's airspace and live among us, supporting and protecting humanity and the Earth at all times and in all things. We will achieve, receive and maintain perfect health, happiness, and abundance with their loving, physical help.
