

Integration of the Parts of Our Soul Living in Different Dimensions

ALLES MEDES UNITES [Alles medes unites]

The symbol helps to reunite the parts of our soul that live in different dimensions. A certain percentage of our original soul can live in different dimensions at the same time, but we are usually only aware of one life. The symbol helps to ensure that these soul particles can continuously reunite and become one unit according to the will of the Almighty God Father of the Universe. When using the symbol, we can ask the energy of thoughts to send us images from our lives in different dimensions and time planes, whether we are awake or asleep. In this way, we can gain insight into our parallel lives. The Almighty God Father provides the opportunity for reunion to those souls who, during their temporary earthly lives created those conditions by developing their virtues. The development of virtues is one of the biggest tasks for humanity on Earth.
