

## AN OUTSTANDING SUMMARY OF THE PAST FIVE YEARS

**SHAMEFUL PERIOD IN OUR HISTORY** *(Humphrey Poole)*

*Relevant to almost every country in the world*

Five years ago, the entire nation, near the entire world - was put under lockdown. Not for an influenza-like illness, but for something far more dangerous.

We lived through a pandemic, yes - but **NOT OF A VIRUS!** *This was a pandemic of media manipulation, government propaganda, corporate corruption and psychological warfare on humanity.*

And now, five years on, we have to ask...**what have we actually learned?** We've learned that they hold total control. That they can rewrite the rules of society overnight, based on "emergency powers" that were never legally binding, yet still somehow dictated every aspect of our lives.

**This wasn't about public health - this was a global obedience test.** A live experiment to see how quickly they could get people to comply, how easily neighbours could be turned against each other and how rapidly fear could be weaponized into control.

We saw friends reporting each other for breaking rules that changed by the week. We watched as "key workers" were exalted, while others were shamed or discarded entirely. They restructured society into tiers of importance. They elevated some, silenced others and broke apart the very fabric of community.

**They purposely divided us...masked versus unmasked, jabbed versus unjabbed, compliant versus defiant.**

While they preached about unity, they embedded division into everything they did. And in the background, **they passed protest laws that stripped away our fundamental human rights.** They didn't just remove freedoms, they acted as though we had to earn them back.

*Every rule they introduced was just another move in a prolonged psychological game of gaslighting and coercion. They played the public like puppets...*

*It wasn't public safety. It was a three-year training programme **in emotional abuse and compliance.***

All the while, real lives were being lost in the most horrific, inhumane ways. People died alone in hospitals, without comfort or final goodbyes. Family members were denied the right to sit beside their dying loved ones. Care homes were locked down like prisons.

**And behind the scenes, the government issued blanket 'No Resuscitation' orders - without consent, without discussion...sentencing tens of thousands of elderly people to death!**

Midazolam was pushed into the care system in bulk (a powerful sedative used to hasten the end) and those deaths were added straight to the Covid death count. They murdered our elderly while we were told to “protect the National Health Service”. “Protect Granny” was engrained in us by the very system that was being used to implement silent euthanasia...

And while all this was happening, they did exactly what they liked. They had parties. They flew around the world. They sat shoulder to shoulder at wine and cheese gatherings. They laughed in our faces while we were told to stand on our doorsteps and clap. Behind the scenes, they handed out billion-pound contracts to their friends and donors. **THEY MADE THEMSELVES RICHER THAN EVER.**

**FACT - The largest surge in people becoming billionaires in UK history happened during the Covid years**

While small businesses were shut down, families relied on food banks and mental health spiralled out of control, the elite class doubled their profits. They dangled Bounce Back Loans in front of struggling business owners, knowing full well the repayment terms and interest rates would destroy them later. It wasn't support - it was bait....And as per usual, the banks cleaned up.

Those contracts? Many were awarded to companies with zero experience - just the right political connections. PPE deals worth millions vanished into thin air. Some of the kit never arrived. Some of it was unusable. But the money was spent and no one was held accountable. They got away with daylight robbery, while the rest of the country struggled to breathe under the weight of restrictions.

**Test and trace cost £37 BILLION pounds of tax payers money, only to merely exist 3 years later... this was nothing short of money laundering.**

**Then, let's not forget the damage done to our children - the most innocent victims of all!** Two years of stolen education. Playground tape. Zoom classrooms. Fear. Isolation. Confusion. A spike in youth mental health crises. A rise in self-harm, suicide and eating disorders.

**They say it was for their safety, but nothing about it was safe.**

- It was trauma, inflicted by policy.
- This wasn't just incompetence.
- This was narcissistic, state-sanctioned abuse.
- It was calculated.
- It was deliberate.
- It was control.
- **AND IT WAS MURDER!!!**

**IT WAS GENOCIDE!!!**

*We must not forget. We must not “move on” like they want us to.*

*We must not let them rewrite the narrative.*

*Because next time - and there will be a next time - they'll be faster.*

*More efficient. More ruthless.*

Let this be the lesson... **YOUR GOVERNMENT CANNOT BE TRUSTED.**

They will never be for the people.

They will always be for themselves.

They will use your empathy against you.

They will use fear to control you.  
And they will smile while they do it.

**NEVER FORGET WHAT THEY DID.**
