

**Moving and Acting Only According to Your Own Will**  
(Completely Shutting out Compulsive Movements and Actions Incited by Negative Energies)

**SAINTES IES MOVESIS**  
[s e n t e s i e s m o v e s i s]

The negative powers unfortunately often implant frequency messages into our subconscious and into our thoughts that make us do something other than what we meant to do. These negative messages convince us to engage in animosity and wars, destroying our own lives and the lives of others. This symbol protects us from the negative powers' directions and ensures that we will only do what we want of our own independent will, that which is completely in our own interests and the interests of others. In this way we will never get into any dangerous situations in which the outcome of our lives would be influenced or in which we would be prevented from fulfilling our life tasks.
