

GOOD MORNING!

**I wish myself and all those I love and will meet today
a very GOOD MORNING and DAY!**

**Blessed Source of All Creation, Almighty Energy of Light and Love,
I ask you now to send me a ray of golden diamond light to my head,
so that I can guide it through my whole body. Thank you.**

**Now, I receive the ray of golden diamond light with deep gratitude
and guide it from my head down to my toes, and from there it flows
upwards to the head expanding and filling my entire body. The light
then radiates outward and makes my whole body, aura and energy
space shine.**

Now every little cell of mine is smiling, and happy about this day.

SOMETHING GOOD IS HAPPENING TODAY!
